

**Arrow sums**

1. Rename the following numbers:

$45 = 40 + 5$

$35 = 30 + 5$

$13 = 10 + 3$

$18 = 10 + 8$

$28 = 20 + 8$

$27 = 20 + 7$

$12 = 10 + 2$

$14 = 10 + 4$

$24 = 20 + 4$

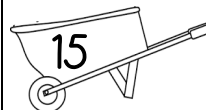

$32 = 30 + 2$

2. Fill in the missing numbers of the sum:

$14 + 13 = \square$

$15 + 11 = \square$

 $+ 10 \rightarrow 24 + 3 \rightarrow 27$

 $+ 10 \rightarrow 25 + 1 \rightarrow 26$

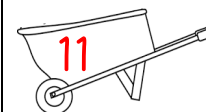

$14 + 13 = 27$

$15 + 11 = 26$

$17 + 12 = \square$

$11 + 16 = \square$

 $+ 10 \rightarrow 27 + 2 \rightarrow 29$

 $+ 10 \rightarrow 21 + 6 \rightarrow 27$

$17 + 12 = 29$

$11 + 16 = 27$

3. You are so clever! Now try on your own:

$12 + 14 = \square$

$14 + 15 = \square$

$12 + 10 \rightarrow 22 + 4 \rightarrow 26$

$14 + 10 \rightarrow 24 + 5 \rightarrow 29$

$12 + 14 = 26$

$14 + 15 = 29$
