

Treinsomme:

$$58 + 39 + 24 = \square$$

$$58 + 30 \rightarrow 88 + 9 \rightarrow 97 + 20 \rightarrow 117 + 4 \rightarrow 121$$

$$58 + 39 + 24 = 121$$

$$123 - 52 - 29 = \square$$

$$123 - 50 \rightarrow 73 - 2 \rightarrow 71 - 20 \rightarrow 51 - 9 \rightarrow 42$$

$$123 - 52 - 29 = 42$$

$$168 - 62 + 33 = \square$$

$$168 - 60 \rightarrow 108 - 2 \rightarrow 106 + 30 \rightarrow 136 + 3 \rightarrow 139$$

$$168 - 62 + 33 = 139$$
