## Grade 5

### Maths

#### Data Handling

1. You have been given the following data about the marks students got in the last spelling test. Find the maximum, minimum, range, mode and median for the results. (Remember to put the numbers into order before starting)

**2, 4, 3, 9, 8, 3, 10, 6, 2, 9, 3, 9, 8, 4, 10**

In order:

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

- a. Maximum:
  - b. Minimum:
  - c. Range:
  - d. Mode:
  - e. Median:
2. You have been given the following data about the number of books students have read in the last year. Find the maximum, minimum, range, mode and median for the results. (Remember to put the numbers into order before starting)

**15, 13, 2, 5, 6, 0, 0, 8, 7, 4, 10, 10, 14, 1, 10, 0, 5**

In order:

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

- a. Maximum:
  - b. Minimum:
  - c. Range:
  - d. Mode:
  - e. Median:
3. You have been given the following data about the number of goals the soccer players have scored this season. Find the maximum, minimum, range, mode and median for the results. (Remember to put the numbers into order before starting)

**0, 3, 3, 4, 2, 0, 0, 1, 1, 2, 2, 6, 5, 0, 1**

In order:

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

- a. Maximum:
- b. Minimum:
- c. Range:
- d. Mode:
- e. Median:
