

## Grade 8 - Mathematics

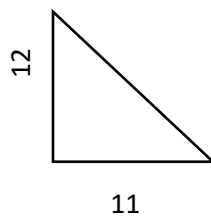

### Measurement 1

#### Activity

- A. Using the Theorem of Pythagoras calculate the value of the unknown sides: (round off your answers to two decimal places where necessary)

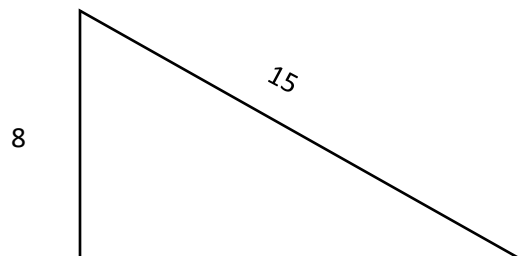

1.

2.

3.

# WorksheetCloud

4. Using the given measurements for a right angle triangle, calculate the value of the missing side:

a. Hypotenuse = 9; side a = 7

b. Side a = 10; side b = 6

c. Side b = 4; hypotenuse = 12
