

## Grade 9 - Mathematics

### Organising and Representing Data 3

### Activity

1. The table gives data on rainfall collected from 104 weather stations and grouped into 9 classes:

Rainfall in cm (classes)	10 - 29	30 - 49	50 - 69	70 - 89	90 - 109	110 - 129	130 - 149	150 - 169	170 - 189
Number of stations	33	8	17	12	15	10	5	2	2

- Draw a bar graph for the data.
- What is the modal class?
- Calculate the estimated mean.
- Calculate the median.
- Calculate the mode.
